

Spring 2017 Seminar Series

Unless noted, all seminars are held in the LSIII Auditorium at 4:00pm with refreshments served at 3:30

- 2 Feb Eric Schauber[†] – Cooperative Wildlife Research Laboratory, Southern Illinois University
Social behavior and disease dynamics: white-tailed deer as a frustrating/fascinating model species
- 9 Feb Corine Vriesendorp[†] – Keller Science Action Center, The Field Museum, Chicago
A decade of rapid inventories, museum science and conservation impact in northern Peru
- 16 Feb Joel Brown[^] – Dept. Biological Sciences, University of Illinois Chicago
Why Darwin would have loved game theory
- 17 Feb Joel Brown[^] – Dept. Biological Sciences, University of Illinois Chicago
Through the Darwinian looking glass: past, present, and future
7:30, Lesar Law School Auditorium*
- 23 Feb Aaron Schrey – Dept. Biology, Armstrong State University
DNA methylation: a mechanism for organismal response to environmental change
- 2 Mar Laura O'Connell[†] – John A. Logan College
Combining oceanography, sedimentology, and marine biology to interpret benthic environments on shallow, cool-water seafloors: Spencer Gulf, South Australia
- 9 Mar Federico Hoffman[†] – Mississippi State University
TBA
- 23 Mar Stephanie Carlson[†] – Dept. Env. Sci., Policy and Mgmt., University of California at Berkley
Eco-evolutionary dynamics of Pacific salmon and trout
- 30 Mar Matt Gifford[†] – Biology Dept., University of Central Arkansas
TBA
- 6 Apr Alex Gerson[†] – Biology Dept., University of Massachusetts, Amherst
TBA
- 13 Apr Frank Anderson[†] – Zoology Dept., Southern Illinois University
Marvellous ploughs, ice worms, and feather dusters: phylogenetic relationships and major habitat transitions in Annelida
- 27 Apr Maureen A. Donnelly[†] – Dept. of Biological Sciences, Florida International University
The strawberry poison frog: ecological studies of a model organism
- 4 May Peter Greshoff[§] – Centre for Integrative Legume Research, University of Queensland, Australia
TBA

Funding provided by SIU Departments of Zoology and Plant Biology and
Graduate and Professional Student Council

* Tentative location, subject to change, [†] Zoology, [^] SIU Darwin Week, [§] Plant Biology
